WE OFFER HIGH QUALITY RING DIES AND ROLLERS FOR YOU

About us

JARAY has the latest technology and mature enterprise management system in this field. JARAY products not only sell well in the Chinese domestic market, but are also exported to Europe, Africa and Southeast Asian countries. The excellent products we manufacture not only lie in the quality control of each ring mold, but also in the experienced engineers who provide you with the best solutions. At the same time, Jiarui has invested heavily in recent years to introduce a large number of CNC and heat treatment equipment (HTT KH-4-800 gun drill, HTT KH-4-1000 gun drill, multi-purpose vacuum furnace) to ensure more perfect product quality. Therefore, we can make more and better products for you.
